

## Rebecca Johnson

1018 Ballard Rd  
Georgia, VT 05468  
802-735-2073 Rafavreau@gmail.com

**OBJECTIVE** To help integrate healthcare information in a challenging and meaningful way.

**EDUCATION** **Vermont Technical College** May 2008  
Randolph Center, VT  
*Associates in Engineering, Computer Engineering*

**EXPERIENCE** **Ready Computing** October 2019 - Current  
*Integration Engineer/Team Lead (October 2019-February 2021)*  
*Associate Implementation Manager (February 2021-Current)*  
*Contracted with VHA*

### **Responsibilities include:**

Manages 10+ developers and integration engineers, while working in a Intersystems HealthShare environment. Is an Architect, helping to design and implement fixes for immediate problems, working with a team of engineers and management. Provides assistance on high visibility outages. Designs and writes enhancements to current data flows. Implemented a SAML workflow on Document Query and Retrieves, allowing for enhanced reporting on requests.

Previously led a development team in an Agile environment to support the current VHIE (Veterans Health Information Exchange) project. Streamlined and improve the Document Query and Retrieve process. Became the subject matter expert on the Consent workflow. Was part of a “tiger team” to help troubleshoot and resolve critical production issues.

### **Primary Technical Languages/Skills**

Cache Object Script  
HL7 v2, CDA, FHIR  
XML, XSLT  
SQL

### **Integration Software**

Intersystems HealthShare

**Marathon Health** August 2016 - September 2019  
*Senior Interface Analyst*

### **Responsibilities include:**

Successfully designed and implemented a Lab Order and Result interface between

Marathon Health and LabCorp, including developing additional support software to enhance interface engine. Developed a C-CDA interface between Marathon Health and a HIE vendor, also transformed and imported multiple C-CDAs into Marathon's EMR. Facilitated file transfers and ETL between Marathon Health and its vendors, ensuring up-to-date patient and customer information. Assisted Account Managers and other clinical and non-clinical staff with a wide range of support including, but not limited to, individual patient queries and manipulating large amounts of data.

Managed and updated multiple BizTalk interfaces transforming CSVs, HL7 V2, and x12 documents for importing into custom EMR software.

**Primary Technical Languages/Skills:**

HL7 v2.x, CDA, XML, XSLT, HTML

C# (.NET 4.x), MS SQL

**Integration Software:**

Pilotfish, BizTalk

**MBA HealthGroup**  
*Support Specialist*

December 2013 - June 2016

South Burlington, VT

**Primary responsibilities include:**

Provide support to external clients in Allscripts TWEHR and Practice Management with questions ranging from billing questions to hardware and software technical support. Managed Touchworks interface error queues. Created programming and documentation to assist with further support.

**Integration Software:**

Allscripts TouchWorks EHR, Practice Management

Rhapsody, ConnectR

**SUMMARY OF SKILLS**

- Ability to adapt to changing circumstances
- Excellent technical problem solving skills
- Experience in SQL, VB.Net, VBA, C#
- HL7 v2.x, CDA

**CERTIFICATIONS**

Allscripts Common Interface Engine (Rhapsody), granted 7/2015

HL7 Fundamentals Course completion, granted July, 2018

**ADDITIONAL EDUCATION**

Fire.ly FHIR Overview, taken December 2020.

**PERSONAL PROJECTS**

Wrote a custom VBA Project which extracts GitHub project pages to populate an Excel Spreadsheet.
